STANDARD SPECIFICATIONS

ITEM 57
CONCRETE STEPS

57.1 DESCRIPTION

This item shall consist of steps composed of Portland cement concrete construction as herein specified on an approved subgrade, in conformity with the lines and grades established by the Engineer and the details shown on the plans.

57.2 MATERIAL

Materials and proportions used in construction under this item shall conform to the requirements of Class "A" Concrete under Item 400 "Concrete Construction". Expansion joint filler shall conform to the requirements of Item 400.

57.3 CONSTRUCTION METHOD

Construction methods shall be similar to Item 55, "Concrete Sidewalks and Driveways".

57.4 MEASUREMENT

Concrete steps will be measured by the linear foot of steps. One step is defined as 10" tread and 6" maximum rise.

57.5 PAYMENT

The work performed and materials furnished as prescribed by this item, measured as provided under "Measurement" will be paid for at the unit price bid for "Concrete Step", which prices shall each be full compensation for preparing the subgrade; furnishing and placing all materials including expansion material; for furnishing, placing and shaping and tamping backfill; and for all manipulation, labor, tools, equipment and incidentals necessary to complete the work.
