What is ReportIt?

ReportIt lets you securely store serial numbers, item descriptions, pictures, and scans of receipts so that your items may be more easily identified in the event of theft or loss.

What makes your property unique?

Helpful hints:

- ✓ Be specific.
- ✓ Fill in as much information as possible.
- ✓ Upload photos and scans of receipts. It's especially important for jewelry and property that does not have a serial number.

The screenshot shows a web form titled "Add Item" with a close button (x) in the top right corner. Below the title is the instruction "Please fill out the required fields." The form is divided into two main sections. The left section contains several input fields: "Category:" with a dropdown menu showing "Clothing, Jewels, & A"; "Description:" with a text box and a red asterisk; "Inscription:" with a text box; "Brand / Make:" with a text box and a red asterisk; "Model:" with a text box; "Serial:" with a text box and a red asterisk; "Value:" with a text box and a red asterisk; "Date Purchased:" with a date picker; and "Comments:" with a larger text area. The right section is titled "Add Images of Receipts, Warranties, etc." and contains the text "Valid image files are BMP, JPEG, GIF, and PNG. Up to 4 images can be uploaded." Below this text is a blue button labeled "Browse to Upload". Underneath the button are three links: "Image", "Thumbnail", and "Delete". At the bottom of the form are three buttons: "Save and Close", "Save and Add Another", and "Cancel".
